Individual *Record Holders*

Our league began in 1987-1988. The first 13 seasons we have no records available for individual statistics. We began collecting individual statistics for the regular season in 2000-2001 and playoff individual statistics in the 2001-2002 season. As of today, September 2025, we have 24 seasons of regular season stats and 22 seasons of playoff season stats. We call our last 24 years as the 'modern era' and all seasons before 2000 as our 'vintage era'.

We currently completed our 37th season, 2025-2026 and next season will be our 38th season. Note we lost 2 playoffs and 1 regular season due to COVID.

The following is our record holders for both regular and playoff seasons from all of our archived statistics since the 2000-2001 season. Enjoy.
