

Single Season Record Holders

Our league began in 1987-1988. The first 13 seasons we have no records available for individual statistics. We began collecting individual statistics for the regular season in 2000-2001 and playoff individual statistics in the 2001-2002 season. As of today, March 2018, we have 18 seasons of regular season stats and 17 seasons of playoff season stats. We call our last 18 years as the 'modern era' and all seasons before 2000 as our 'vintage era'.

We are currently in our 31st season, 2017-2018.

The following is our record holders for both regular and playoff seasons from all of our archived statistics since the 2000-2001 season. Enjoy.
